(Luv to me (AMD mix) - DJ Kazu feat. tiger Yamato)

Luv to me...

Neon signs were shining bright  
And in the street lights...  
I saw your shadow was fading away  
Well, I lost you, all of a sudden

Good-bye, my love, I love you so  
Before you went away, I didn't know  
Memories awake only in my dream  
When I think I lost them, they all come back to me

You said that you love me  
Look at me softly  
You kissed me and held me all night so tight  
I know what your feeling  
I know what your dreaming  
All that you feel and everything in your mind

The memories are so clear  
So many good years the sweet ones I hold dear

Luv to me...

Good-bye, my love, I love you so  
Before you went away, I didn't know  
Memories awake only in my dream  
When I think I lost them, they all come back to me

The memories are so clear  
So many good years the sweet ones I hold dear  
Can't hold back the tears  
I need you by my side  
These feelings I can't hide  
So don't walk away boy  
Baby wasn't you bring back
