(My fire - X-Treme)

Just bring it on down... (4x)

*

Relight my fire
your love is my only desire
Relight my fire
'cause I need... your love

Bring it on down and take it higher,
Feel your body burning with desire
One step a little closer,
Turn around and shake like you're supposed to,
A roller coaster about this time I'll make a suggestion,
Get on the dancefloor and use discretion it's hot,
And when I find the spot...

* Repeat (2x)

...You'll swarm and learn that term of disagreement,
'Cause we've seen it,
All before as we've near the door,
The pretty young girls on the front are screaming more
Another score,
The b.o.y.z. come here to jam,
From 86 a three man band with a sound,
Bring it on down.
The beauty of the music I'm preachin'
You don't have to be a genius to reach 'em,
Just the bassline, a pumpin' move groove,
Get on the dancefloor it's time for us to approve,
This frame of mind.
I design the rhymes to keep you going,
Drop the lowin.
The b.b.c. will get your juices flowin'.
Now you hear the bassline pumpin',
The meters trippin', your feet are jumpin',
That's another groove, was still that purpose, sir,
That's all to move.
You, now that you understand,

Fell the power of the rhythm just take a man,
Spin it round and round and when you're up there,
Just bring it on down.
