Into the night
You make me cry
I need your love
To save my life

I need you while my piano gently weeps
Just listen to Beethoven

A melody
Will set you free
You need my love
Deep in your mind

I need you while my piano gently weeps
Music is gonna save your li-i-i-i-i-ife!

Into the night
You make me cry
I need your love
To save my life

I need you while my piano gently weeps
Just listen to Beethoven

A melody
Will set you free
You need my love
Deep in your mind

I need you while my piano gently weeps
Music is gonna save your li-i-i-i-i-fe!
