"Grinding In My Head"

You love him, not me anymore
"Who knows 'till I see you again"
It keeps grinding in my head

An animal in a death fight on TV
Another cow with BSE
It keeps grinding in my head

We clone sheeps, play God
We kill out own kind
It keeps grinding in my head

An asylum seeker kills himself
Because he needs to go back to his own country
It keeps grinding in my head

Cancer destroys his whole body
He only has a day or five
It keeps grinding in my head

And even God really exists,
Why then is she always too late?
It keeps grinding in my head

It keeps grinding in my head
It keeps grinding, it never stops!
