Smoothed out without the r and b  
(mercy) come on!  
(mercy) come on y'all!  
(mercy) come on!  
There's no r and b in this song  
So come along fly children come along  
Come along fly children come along  
Come along fly children come along  
There's no r and b in this song!

Pushed up a dame by the name of crystal  
Who flaunts to the point just like a missile  
A habit wit ear kiddin' wit gold mags  
And since she fancies facial hair she asks my name  
(hey baby what's your name? )  
Now ever so fab I said I'm wala  
Miss wild who used to run tough wit koala  
She was a winner of my metaphor and she knew that  
I said I'm gonna feed your mouth she said you do that  
Now crystal stops the jeep I think I'm mad fly  
She used to have a man wit lots of mad signs  
Her strut was guaranteed to make a gay smile  
And in bed she had proved to be real agile  
I show her to the lounge and I dined her  
Then she gave me some digits where I could find her  
I licked her like a stamp  
Laid and stucked her like a champ  
But the... um she gave me burn  
I had to go see the doctor

(3 days later) skeezer skeezer skeezer (uhhhh)

Dove:

Well it was thirty after nine and I was loungin'  
Token' on some smoke that I was poundin'  
I rang up seven up so we can skip to the mall  
Thinkin' a good day to shop  
But then we got stopped

A shooter man said "yo this is a stick up"  
A whole lot of dirt was 'bout to kick up  
I had screens in my pocket  
And man, tonight's my date  
Wit smokey sue, now what was I to do?  
In my head I'm thinking, 'should I dodge the bullet? '  
'man this kid is bluffin' you can pull it'  
I feared the whole scene,  
The shooter didn't bluff  
Now look at me now,  
He shot my ass dead  
(yeah)

(you shouldn't have)  
(I did, so let's get in the van)  
(you shouldn't have)  
(I did, so get in the fucking van!)

(I love you babe)  
(i.. I love you babe)  
(I love you babe)  
(I love you babe)

Skeezer skeezer skeezer  
Skeezer skeezer skeezer  
Skeezer skeezer skeezer  
Skeezer skeezer skeezer!
