"Can't Be Caught"

Visit "[Can't Be Caught](#)" on MotoLyrics.com

Home town Hamilton quiet place want to leave good
friends good times my old car singing beach campsite
river woods swilly night caught police, can't leave, can't
change, can't stop , another week,
Gotta stay I gotta stay right here and now gotta stay
stuck right in my town gotta stay this place was great
back then for me gotta stay it's not exactly where I
wanna be,

When your life's built like a cell you can't find a way out
When your life's built like a cell stuck inside my whole
life
When your life's built like a cell you can't find a way out
When your life's built like a cell stuck inside my whole
life

We can't be caught, we can't be caught we can't be
caught, no
We can't be caught in a four wall way of life
I won't be caught , I won't be caught , I won't be caught,
no
I won't be caught cause i can see more than in sight

Work hard shit job no respect killing me lose sight lose
time friend girl can't meet make rent food drinks soap
lights tv, can't leave, can't change, can't stop another
week gotta stay
Gotta stay I gotta stay right here and now gotta stay
stuck right in my town gotta stay this place was great
back then for me gotta stay it's not exactly where I
wanna be,

When your life's built like a cell you can't find a way out
When your life's built like a cell stuck inside my whole
life
When your life's built like a cell you can't find a way out
When your life's built like a cell stuck inside my whole
life

Gotta stay I gotta stay right here and now gotta stay
stuck right in my town gotta stay this place was great

back then for me gotta stay it's not exactly where I
wanna be,

It's hard when you're stuck in your town and you can't
get out

When your life's built like a cell you can't find a way out
When your life's built like a cell stuck inside my whole
life

When your life's built like a cell you can't find a way out
When your life's built like a cell stuck inside my whole
life

Gotta stay I gotta stay right here and now gotta stay
stuck right in my town gotta stay this place was great
back then for me gotta stay it's not exactly where I
wanna be,
