Shave it off! well i see too many of them walking  
around dirt on their face no hair to be found well they  
walk in malls and they walk in packs dirt on their lip and  
we can't have that, smoke look rough, look bad, look  
mean this media-tough kid only about 13 where the hell  
is mom, where the hell is pop get a razor blade this has  
gotta stop {dirt lip shave it off dirt lip it's gotta stop dirt  
lip just wait five years it's not a mustache, it's not a  
beard} when i was a headbanger i got beat up five dirt  
lips yeah that was enough well i guess by now my  
mind's gone wack my friends say man you just gotta  
relax,

Soap helps dirt helps you keep clean to end dirt lips is  
now my dream if you see one walk by well just give 'em  
a smack i'll shave their lips and i'll shave their back  
{chorus} well i always wonder if they see it at all if they  
comb or groom it or just think it's bald, cause the hair  
on your lip is like the hair on my arm it's like the hair on  
a mole, so don't act so alarmed dirt lips taken all size  
and shape they can start at 9 and cover any age burn  
it, bleach it, nair it or just masking tape, just get rid of it  
all it's not too late {chorus}
