"Find Out"

Visit "[Find Out](#)" on MotoLyrics.com

I gotta find out why i'm sticking around i gotta find out
why i'm always being pushed down, i gotta find out
(get out, get out) i gotta find out (get out, get out) i
gotta try and find a friend i gotta try and find a good
place again, try and find my way i can't stay i can't stay
they're gonna have to leave here sometime, can't you
see what's all around, they're gonna have to leave here
sometime (i don't like this place i don't like your friends
i don't like the way they all treat you i don't wanna stay i
got things to do a slave in heaven or a star in hell)
you're a star in hell *[repeat]*
