G.l.d. she's all over me she's a sketchy sketchy girl and  
i know that you'll agree, when i was invited to climb into  
her bed, i just rolled over and pretended i was dead,  
(she's an elf, it's not ok, she's short - short, stupid -  
stupid so lame I want her to leave me alone I want to go  
home) G.L.D. can't believe you brought her by, like lice  
from the sea can't believe she multiplied, after clearing  
out the room don't you think you all should leave,  
how'd you ever trick my friend how'd you brainwash  
steve [chorus]
