I Could Be Happy Here By Big Country.

If you will take my love
If you will take my stand
If you will be the one
If you will take my hand
If you will never run
I could be happy here
If you could take my pride
If you could take my tears
If you could take my side
If you could take my fears
If you could take turn the tide
You could be happy here
But I see what is done in my home-land
But I see what is done in my name
Can you see what is done in your home-land ?
Can you see what is done in your name ?
Tonight we keep our pride
Tonight we dry our tears
Tonight we leave our sides
Tonight we shead our fears
Tonight we turn the tide
And we are happy here
But I see what is done in my home-land
But I see what is done in my name
Can you see what is done in your home-land ?
Can you see what is done in your name ?
>From the L.P./Cassette "Peace in our time"
