Stand up  
Hold my hand  
I hope you understand  
Here where time is still  
I walk the hill  
Stand here  
Close to me  
Here for all eternity  
I wait as others will  
I walk the hill

I held you then  
I hold you still  
I held you as I always will  
And you can have my heart to fill  
As I walk the hill

I am not as strong as I am told  
Feels to long since I was bold  
But you can lie in sheets of gold  
If I walk the hill

You touch me and I understand  
We only write our names in sand  
But I can stand where legends stand  
When I walk the hill
