If there's one great thing to happen in my life
If there's one great day, if there's one great height
Let it be the time for peace, let it be the time of right
If there's one great thing to happen in my life

I've seen too much of what fighting has done
I've seen too much anger and I've seen it far too young
And talk of much of nothing while the shouting still
goes on
But we are only singers until better songs are sung

If there's one great thing to happen in my life
If there's one great day, if there's one great height
Let it be the time for peace, let it be the time of right
If there's one great thing to happen in my life

I've seen the way of martyrs and I've seen the way of
kings
I've seen the hope that love can bring
I only hope what pleases me will also pleasure you
For might can never be the hands that make a dream
come true

If there's one great thing to happen in my life
If there's one great day, if there's one great height
Let it be the time for peace, let it be the time of right
If there's one great thing to happen in my life

I've seen too much of what fighting has done
I've see too much anger and I've seen it far too young
I've seen the way of martyrs and I've seen the way of
kings
I've seen the hope that love can bring
I only hope what pleases me will also pleasure you
For might can never be the hands that make a dream
come true

If there's one great thing to happen in my life
If there's one great day, if there's one great height
Let it be the time for peace, let it be the time of right
If there's one great thing to happen in my life

If there's one great thing to happen in my life
If there's one great day, if there's one great height
Let it be the time for peace, let it be the time of right
If there's one great thing to happen in my life

If there's one great thing to happen in my life
If there's one great day, if there's one great height
Let it be the time for peace, let it be the time of right
If there's one great thing to happen in my life
