Gonna take a message to mother  
Tell her that I'll be home soon  
Let her know I'm still undercover  
Hiding out behind the moon

The selling of America  
Its going on now town by town  
The selling of America  
You better keep it underground

...Ha...

Better get a message to mother  
Tell her that our workers are doomed  
You better call on General MacArthur  
And tell him that the invasion is due

The selling of America  
Its going on now town by town  
The selling of America  
You better keep it underground  
Here come the dollar bombers

...Hey hey ya ya...

I guess you better get the word to the boss man  
A wire from the industries ba???

Tell him that their over the border  
Trying out the white house for size

The selling of America  
Its going on now town by town  
The selling of America  
You better keep it underground

The selling of America  
Its going on now town by town  
The selling of America  
You better keep it underground
