There may be trouble ahead  
There may be light in the distance  
It may be something you said  
Maybe my lack of resistance  
It took you so long to be young  
And just a second to be old  
Leave me a moment in the sun  
I've got forever to be cold  
Some people can find a way  
To get this thing together  
But there? s me  
And there? s you then there? s the truth  
How did you learn to be kind  
Where did you learn to be honest  
How do you learn to be blind  
Why do you whisper the promise  
If you cant have what you want  
Why don? t you use what you? ve got  
I won? t do things that I can? t  
I can? t be something that I? m not  
Some people can find a way  
To get this thing together  
But there? s me  
And there? s you then there? s the truth  
Some people can find a way  
To get this thing together  
But there? s me  
And there? s you then there? s the truth  
Maybe we should just be friends  
Maybe we? d be better strangers  
I know that everything ends  
I know the color of danger  
All we do is hide the fire  
We just forget about the smoke  
Is that a smile with a future  
Or just a farewell to hope  
Some people can find a way  
To get this thing together  
But there? s me  
And there? s you then there? s the truth  
Some people can find a way  
To get this thing together

But there? s me  
And there? s you then there? s the truth  
But there? s me  
And there? s you then there? s the truth
