All I ever do
I steal myself away from you
Where love was destined to decay
Just disappeared away
All I have to do
I pack my bag and walk out on you
Hold on to something new
I'll take whatever comes my way
Whatever I've said and done
The trouble my dear has just begun
Your heart so warm
I never meant to do you harm
I promised the world to you
There comes a day
When you feel it was all in vain
I never meant to cause you pain
All I ever do
I dream myself away from you
Where skies were never blue
Today I'll blow it all away
All I have to do
I pour my hate all over you
Your room without a view
Today you'll disappear away
