With fire in your heartbeat  
And a chill within the words you speak  
Come one come all back to reality  
Trapped in an ocean of illusion  
With no notion, only confusion

Within the shadow of the one who holds more than your  
thoughts  
Trust you won't see clearly

Every minute you waste is a minute you've lost  
And you will never get it back  
Every minute you waste is a minute you've lost  
And you will never get it back

In a world under glass  
You can watch the time pass  
As the earth becomes an echo of what's left outside  
But the wind can blow cold  
In the depths of your soul  
And no one will find you in the place where you hide

You'll be branded for the weak who follow  
Your shame will lead your reign  
And you'll be back to where you started  
Within the shadow of the one who holds more than your  
thoughts  
Trust you won't see clearly  
Bounce

Let go  
Let go of the fear that you've guarded  
Cuz when I look in your eyes  
I can see that you lied  
And I knew it ever since we started

In a world under glass  
You can watch the time pass  
As the earth becomes an echo of what's left outside  
But the wind can blow cold  
In the depths of your soul

And no one will find you in the place where you hide

And you will never get it back  
You deceive  
I won't believe any word you say  
I won't obey

You deceive  
I won't believe any word you say  
I won't obey

In a world under glass  
You can watch the time pass  
As the earth becomes an echo of what's left outside  
But the wind can blow cold  
In the depths of your soul  
And no one will find you in the place where you hide

Let go

Let go  
Let go of the fear that you've guarded  
Cuz when I look in your eyes  
I can see that you lied  
And I knew it ever since we started
