You
You return in the night
Don't have a person to hold you
And you think about the past time
When you were
When you were still loved

You go to bed alone
Don't have a person to warm you
And you think about your lost love
Then you try to forget

Try to forget, Try to forget
Try to forget
You should try to forget
But you can't forget

You
You don't show your tears but I do
And you hope that someone knows
That you are alone
And takes you
And takes you in his arms

Your secrets are your thoughts
Write them down and start to cry
Write them down and start to scream
Because you know you are alone

Try to forget

Try to forget...
