I teach you a lesson  
I know something beautiful  
Let me grafitly your passion  
There is no need to regret  
you'll enjoy the labour  
There is no regret  
Will you garant the ultimate favour  
There is no failure  
We fly into the end of time  
Tonight  
We try to get high one more time  
Tonight  
We fly into the end of time  
Tonight  
don't cry ,this love wont be denied  
Tonight  
Overcome resistant  
There is something beautiful  
We can summon into existence  
We kill the distance  
Something you cannot measure  
Can we ever get enough  
No we never pall the pleasure  
We hold the treasure
