There are words that will make you
Make you angry,happy all at once
All at once everything changes
Changes over the whole wide world

This is not the worst thing
Its not the only thing
Its not the real thing
Its just a pimp talking, it's just a pimp talking

There are words as big as work
They will hook you then slap you some slap you some
Some people find better ways of making money
Money something that you get not make

This is not the worst thing
It's not the only thing
Its not the real thing
Its just a pimp talking, it's just a pimp talking

This is not the worst thing
Its not the only thing
Its not the real thing
Its just a pimp talking, it's just a pimp talking
