

Deacon Blue And Ricky Ross "Threatening Rain"

Visit "[Threatening Rain](#)" on MotoLyrics.com

I could be the lover you want me to be
I could be the queen of the Northern sea
Make you all the money you'd ever need
Drive you in car that could take you far

So that I could do without you
I could do without you

Tomorrow they say it's the end of the world
So go out and find some other girl
Who knows? These things can sometimes work
You might be surprised I don't feel hurt

Or that I could do without you
I could do without you

They say the sea is high
And the clouds are darkening the sky
I've been out today
All I found was threatening rain

So do we go out now and tell the folks
Or is it time for unfunny jokes
When you know love, you know the most
That what you had is long time lost

And I can do without you
I can do without you
