

Deacon Blue And Ricky Ross "Vision On"

Hold my hand in your hand
Let my thoughts be your thought
I want to find the fire upon my face

To the centre to the heart
Retreat ,retreat they said
Within the core the voice replied

I will folow
I will follow
I will follow
Vision on

Mind games , war games
Relationships and battleships
Nothing else here but everybody else

You can live without the outside
But not without the insight
But never live without the voice within
