My heart's riddled with stitches
I'm an asphyxiated kind of blow
I've become arthritis
From touching you

I've become arthritis
Anesthetic don't come cheap
We all float,
We all float down here.

You are white and tasteless
Wide-eyed and shameless
Do you get it yet?
My conscience ain't clearing
How the hell did I end up here?
Do you get it? Æ
Get it? Get it yet? Get it?
Get it? Get it yet?

Reaping machines taking hold of me
And let me underneath
So look at me
Always a part of me
We'll be fucking inseparable
We'll be fucking inseparable
I can't breathe, I can't breathe
(What have you done to me?)
(We all float, we all float down)

You are white and tasteless
Wide-eyed and shameless
Do you get it yet?
My conscience ain't clearing
How the hell did I end Æ up here?
Do you get it?
Get it? Get it yet? Get it?
Get it? Get it yet?

We all float down here,
And you'll float here too.
