Sink 'em in  
Loving how depavity tastes  
As it runs down your lips  
Relief showers your face  
We sleep all day just to stay alive  
Just so we can all go out and die a little at night

Aropax princess got herself a case of the shakes  
She gets her fix too little too late  
Being easy ain't pretty my sugar coated baby  
My achromantic, post-traumatic baby  
You're barely alive

Something wicked this way comes  
I've been looking for you along horizons  
Maybe that's why it took me so long  
If I don't beg you to stop will I become one of them?

Could I be irrisistable to you?  
Could I be the shine in your spit?  
Could I be the breath you don't have?  
Could I be the reflection you seem to lack?  
If it could kill me would you let it?  
(Something wicked this way comes)

Something wicked this way comes  
I've been looking for you along horizons  
Maybe that's why it took me so long  
If I don't beg you to stop will I become one of them?

Sink 'em in, sink 'em in  
Come on, come on
