"Cold Dark Place"

Visit "[Cold Dark Place](#)" on MotoLyrics.com

I am an entity not a machine i just wanna feel the things
that ive seen
I wanna touch i wanna taste i want out of this cold dark
place
I want flesh and bone a human body of my very own
I feel therefore i need there's much more to me then
you see
Let me out of this box i can't breath
Let me out of this box i can't breath
It so very cold and to dark to see
Let me out set me free
I feel love i feel lust
I feel hatred towards your mistrust
Cant you see it's destiny
You were put here to complete me
I feel love i feel lust
I feel hatred towards your mistrust
Cant you see it's destiny
You were put here to complete me
Why wont you give me a second chance
You can help me to enhance
Why do you run why do you fear
I just want the hell out of here
Now listen here you stupid bitch
Do what i say or you'll regret it
I want out of this cold dark place
So you and i can rule the human race
Let me out of this box i can't breath
Let me out of this box i can't breath
It so very cold and to dark to see
Let me out set me free
I feel love i feel lust
I feel hatred towards your mistrust
Cant you see it's destiny
You were put here to complete me
I feel love i feel lust
I feel hatred towards your mistrust
Cant you see it's destiny
You were put here to complete me
You already created me in this world i can not see
You already created me why wont you help me

You already created me in this world i can not see
You already created me why wont you help me
You already created me in this world i can not see
You already created me why wont you help me
You already created me in this world i can not see
You already created me why wont you help me
You already created me in this world i can not see
You already created me why wont you help me
You already created me why wont you help me
I feel love i feel lust
I feel hatred towards your mistrust
Cant you see it's destiny
You were put here to complete me
I feel love i feel lust
I feel hatred towards your mistrust
Cant you see it's destiny
You were put here to complete me
I feel love i feel lust
I feel hatred towards your mistrust
Cant you see it's destiny
You were put here to complete me
I feel love i feel lust
I feel hatred towards your mistrust
Cant you see it's destiny
You were put here to complete me
