Kid, put that twinkie down, come here
Sure, what
What you need man
I don't know
I got weed
I got some coke
Coke
I got some crack
Naw man
What you want
Um i don't know
Wha.. what you looking for
I got fuckin e
You want e
You got lsd
What lsd.. that shits dangerous
Man lsd is all i need
Man what the fuck is that
What the hells wrong with you
Why your eyes so red
What's wrong you got strawberry fields all over your
face
Give me my drugs i'm getting out of here
Goin on a trip
Every time i go a trippin i feel my mind a slippin
I feel my mind a slippin everytime i go a trippin
I can sense the pain a flowin through my veins
On it's way up to my brain making me insane
Every time i drop i think it will never stop
I think it will never stop every time drop
Goin on a trip took a couple hits now i'm goin on a trip
And i don't give a shit if i ever come back
I'm goin on a trip took another hit now i'm goin on a trip
And i don't give a shit if i ever come back
Why do i keep on trippin when my mind keeps a slippin
My mind just keeps on slippin 'cause i just keep on
trippin
I can sense the pain has sunk into my brain
Lsd is in my veins making me insane
Every time i drop i think it will never stop
I think it will never stop every time i drop

Goin on a trip took a couple hits now i'm goin on a trip
And i don't give a shit if i ever come back
I'm goin on a trip took another hit now i'm goin on a trip
And i don't give a shit if i ever come back
A little lsd is all i need just a little somethin to plant the
seed
A little lsd is all i need and now my mind has been set
free
A little lsd is all i need just a little somethin to plant the
seed
A little lsd is all i need and now my mind has been set
free
A little lsd is all i need just a little somethin to plant the
seed
A little lsd is all i need and now my mind has been set
free
Goin on a trip took a couple hits now i'm goin on a trip
And i don't give a shit if i ever come back
I'm goin on a trip took another hit now i'm goin on a trip
And i don't give a shit if i ever come back
I don't give a shit if i ever come back
I don't give a shit if i ever come back
