"Insanity"

Visit "[Insanity](#)" on MotoLyrics.com

I think i'm losing my mind even the voices are going
insane
Vernture into paranoia there's madness to be obtained
There's padding on the wall because i'm bouncing all
the time
Searching though the human souls deepest darkest
crimes
This is how i spend my time the time that you don't see
I'm everything you hate and yet your still in love with
me
I try to make it right, i do everything i can
But when the day is over i'm still this crazy rotting man
I never meant to spread the wonds of my life's insanity
But i'm growing sick and tired of this responsibility
You may think it's wrong but it's the way it has to be
You must let me concentrate on my insanity
The world fell apart when you slipped off your cloud
It hurts to tell ya you can't go back now
My mind goes places to where i must follow
Alone with my mind i am destined to be
The world fell apart when you slipped off your cloud
It hurts to tell ya you can't go back now
My mind goes places to where i must follow
Alone with my mind i am destined to be
I feel like an asshole now when i look at you
But the purest form of evil is the work i have to do
There was a scrap of good left in me but now i fear it's
lost
The deamon laid low and waited for my own souls
hollacaust
The time for resurrection into darkness has arrived
Time to show the whole world just what lurks inside
The insanity has been set loose a monster on the run
Hold on tight and brace yourself the lunacy has begun
The world fell apart when you slipped off your cloud
It hurts to tell ya you can't go back now
My mind goes places to where i must follow
Alone with my mind i am destined to be
The world fell apart when you slipped off your cloud
It hurts to tell ya you can't go back now
My mind goes places to where i must follow

Alone with my mind i am destined to be
Alone with my mind like a zombie in the grip of an
angry mob
Alone with my mind like a sinner in the hands of an
angry god
Alone with my mind like a zombie in the grip of an
angry mob
Alone with my mind like a sinner in the hands of an
angry god
Alone with my mind like a zombie in the grip of an
angry mob
Alone with my mind like a sinner in the hands of an
angry god
Alone with my mind like a zombie in the grip of an
angry mob
Alone with my mind like a sinner in the hands of an
angry god
Alone with my mind like a zombie in the grip of an
angry mob
Alone with my mind like a sinner in the hands of an
angry god
Sinner in the hands of an angry god
Sinner in the hands of an angry god
Sinner in the hands of an angry god
Sinner in the hands of an angry god
