(My side is rating down on me), We used to be
unbreakable, (so I draw me on yourself), love is
undeniable,
Free from all the lies, still I miss your crystal eyes! (You
are so unhateable)

Til' the end, forget our past!

What have you done to me, don't leave me here, look
what you've done to me, don't leave me here

(You set my heart and soul on fire), that seemed so
impossible, (You've always been my one desire),
You're making me invisible, free from all these lies, still
I miss your angel eyes (You are so unhateable)

Til' the end, forget our past!

What have you done to me, come, don't leave me here,
look what you've done to me, don't heal me here!
(Moving down, clear your mind, now try to dig it out, so
long, realize what you forgot about!)

Til' the end

(Deep inside, you know that we are next to be as one,
you lied to life again!)

Til' the end, forget our past!

What have you done to me, don't leave me here, look
what you've done to me, don't leave me here!

What have you done to me, we were unbreakable,
undeniable
Look what you've done to me, we were unbreakable,
undeniable
