It doesn't matter what you do with your life (you will die)
It doesn't matter what you do with the knife (you will die)
Everything that you sacrificed won't save you (you will die)
There's no telling when I'm gonna strike (you will die)
The fear keeping you awake at night (you will die)
Tortured thoughts of what the pain is like (you will die)

You will die, you'll die painfully
I'll make sure of that, just you wait and see
You can run but you can't hide from me

In my eyes the whole world drowns in blood
I just watch as the whole world drowns in blood (2)

It doesn't matter what you got at your side (you will die)
How far you'll run or where you'll hide (you will die)
You'll feel my wrath when I decide it's time (you will die)
I'm gonna get you and rip you apart (you will die)
I just never know where to start (you will die)
But I always save the heart for last (you will die)

You will die, you'll die painfully
I'll make sure of it, just you wait and see
You can run but you can't hide from me

In my eyes the whole world drowns in blood
I just watch as the whole world floods (2)

Your screams are music to me
Your pain is what I need
I yearn for you to bleed
I am your suffering
Your eyes tell me everything
In fear, you're shivering
Your blood is waiting for me
I am your suffering

You will die, you'll die painfully
I'll make sure of that, just you wait and see
You can run but you can't hide from me
