I will die for you you and all your sins
I've suffered once before and i'll suffer once again
You are all so pretty but me i am so ugly
I will die so you wont fell like me
Label me your jesus i will set you free
'cause that's what he would do if jesus christ were me
I can't help to wonder when i'm hanging on my cross
Was jesus as lonely as me
Label me your jesus i will set you free
'cause that's what he would do if jesus christ were me
I can't help to wonder when i'm hanging on my cross
Was jesus as lonely as me
Is that what you would do
Is that what you would do
Is that what you would do
Is that what you would do
Is that what you would do
Is that what you would do
When i pass away make a symbol of my death
And wear it with pride around your neck
I can't walk on rivers or turn water into wine
But i can turn your misery into mine
Is that what you would do
Is that what you would do
Is that what you would do
Is that what you would do
Is that what you would do
Is that what you would do
Label me your jesus i will set you free
'cause that's what he would do if jesus christ were me
I can't help to wonder when i'm hanging on my cross
Was jesus as lonely as me
Label me your jesus i will set you free
'cause that's what he would do if jesus christ were me
I can't help to wonder when i'm hanging on my cross
Was jesus as lonely as me
Welcome to the house of worship my children
The lord is inside each and everyone of you
Though shalt not seek salvation in a false icon
The gift of life is precious my children
A gift not to be wasted on the holy book of rules
There is no right or wrong in a heart of thy innocent

souls
For death is out of divine intervention
And when our week and confused
Eyes close for that final time
And we breathe our last breath thy shall see the truth
Thy shall say the truth the truth is that there's nothing
out there
Only what dwells inside can i get an amen can i get an
amen
Label me your jesus i will set you free
'cause that's what he would do if jesus christ were me
I can't help to wonder when i'm hanging on my cross
Was jesus as lonely as me
Label me your jesus i will set you free
'cause that's what he would do if jesus christ were me
I can't help to wonder when i'm hanging on my cross
Was jesus as lonely as me
Is that what you would do
Is that what you would do
Is that what you would do
Yea that's what i would do
Yea that's what i would do
Yea that's what i would do
Is that what you would do
Is that what you would do
Is that what you would do
Yea that's what i would do
Yea that's what i would do
Yea that's what i would do
