"Hostis Humani Generis"

Goat burned god of plagues

In thy name I carve my flesh

I wish to be reborn!

Cast your darkness so I can see the light

Let it perforate my soul

The sun will set no more...

Lay me down on the bed of death

Allow me to return redeemed

Quench my thirst with vigorous bile

Bestow upon me hate

Hostis Humani Generis

Purge the earth from human pest

Manifestation of satanic might

Spit forth thy utmost wrath

An epitome of doom!
