

Big Dismal

"Les Cochons Sans Poils"

Visit "[Les Cochons Sans Poils](#)" on MotoLyrics.com

This is mine and you can't take it
You were never in the long term plan
So if I start to move too quickly
Will you have the heart to stop me ma'am
I open my eyes and all I can see is a boy gone red
I drink too much and I think that it's gone to my head
See what a head that's big with hairy hands can do
He's looking at me he stares at us we look right
through
It's been my understanding of an ugly situation, please
Let the night roll with it louder still it's becoming in my
ears
I open my eyes and all I can see is a boy gone red
I drink too much and I think that it's gone to my head
See what a head that's big with hairy hands can do
He's looking at me he stares at us we look right
through
This is mine and you can't take it
You were never in the long term plan
So if I start to move too quickly
Will you have the heart to stop me ma'am
I open my eyes and all I can see is a boy gone red
I drink too much and I think that it's gone to my head
See what a head that's big with hairy hands can do
He's looking at me he stares at us we look right
through
