Don't get caught when the door slams
A good morning to you
I must have missed you come in last night
Reeking everything but glue
What's it to you there babe
My little fuck machine
Rottin Johnny down the block told me how you stay so
lean
Nogaina, bitch, queen, scenester (x2)
It's a different world babe
But the same old scene
All the bitches blur up ordering
All trying to look so mean
I'm sure I didn't ask you
So keep it to yourself
A firecracker dressed in high heels
Knowing how to hide the wealth
Into your world babe
I carve my niche
And everything that you control
And everything done in a pinch
In case you're lost babe, I brought a map
You know you look retarded
Every turned head coming in slapped
Maybe changing your guy could
Could be your misguided lie
Perhaps a combo of all these things
Speaking to you eye to eye
Don't want to point any fingers
The cat is out of the bag
Remember how you seemed so embarrassed ??
Everything's starting to sag
Nogaina, bitch, queen, scenester (x2)
