Waiting for the death in this night
No tomorrow
Radiance rules the air
With hatred inside
Men gathered now in the mortuary
Possessed by the radiant heat
Obey as a slave
Our fate written in her blood
Aborted her children alive
Denying our God
Silent rain falls from the sky
Painted our names in blood
And leaves us to die
Fear, crying in our eyes
Once we've stolen the dignity

Now it dies
Hate, at war with nature
Declare the obituary
Of the earth
End of the illusion
Killing human life
The pestilence has won, die!
Prophet of confusion
Stand a night in blood
Separation is done, die!
Let alone in fear
Living to defile
Torment has just begun, cry!
Suffering by the hour
Destiny of plagues
Our deity is gone, now!
