An animal of not human descent,  
Lying in the middle of the road,  
Struck down in a very vulgar way.  
Lying there, awaiting a slow agonizing death.  
We drive by it.  
It really catches our eye.  
We love animal flesh especially, when it's warm.  
A good fuck and then good eating,  
No need for the creature to go to waste.  
A good fuck and then good eating.  
What else could a person ask for?  
A good fuck and then good eating.  
It's a finger fucking treat.  
I go in from behind and drive it in,  
Sink my teeth in at the same time  
And tear a nice big chunk of flesh,  
Where I chew and fuck, chew and fuck.  
You have to do it just right or you just might choke.  
A good fuck and then good eating.  
What else could a person ask for?  
A good fuck and then good eating.  
It's a finger fucking treat.  
Moo.
