

Dead Legend "Dark Cloud"

Visit "[Dark Cloud](#)" on MotoLyrics.com

There's a dark cloud
That follows my soul down
When I lie awake
No one knows about how
I watch the future in my mind
Yeah, I can see each time
That I'll let you down

All I wanted was you

I never wanted this
I never asked for this dark cloud
Hanging over me
Taking over me now
All I've got to do
Is die alone to save you now
If it were up to me
I'd burn this down to the ground

I hear the rhythm of your heart
Before it even starts
When I lie awake
I hear voices from afar
With every pleasure there comes pain
Knowing you won't know my name
After all is said and done

I never wanted this
I never asked for this
If it were up to me
I'd burn this down to the ground
