

Dead Legend "False Alarm"

Visit "[False Alarm](#)" on MotoLyrics.com

"we just need some time apart"
You got it, what you wanted
"I just need some time to think"
You got it, what you wanted

What did you expect to see?
A changed man? a different me?
Just another false alarm
Yet again got pushed too far
But now we're fine
Now I'm lying again
Just another heart attack
Been resuscitated and now I'm back
And things are fine
Now I'm dying again

I can't stop lying to myself
I believe it
Cuz I think I need it
And I can't stop hating myself
For believing in you
Denying the truth

What did I expect to see?
A better way for you and me?

Now I'm lying, now I'm dying
Dying again
