

Dead Legend "Hands Tied"

Visit "[Hands Tied](#)" on MotoLyrics.com

Lights are flashing against the wall
As cars drive by and darkness falls
Windows cracked, but I can't breathe
Sleeping with the ghost of what used to be

This life is for living
Defined by decision
Pick up the pieces or throw it all away

Hands tied, I surrender to this life
Hands tied, believe in me this time

Feeling lost and without cause
Looking back, not looking toward the open road in front
of me
The beauty within catastrophe

This life is for living
Defined by decision
Pick up the pieces or throw it all away

Hands tied, I surrender to this life
Hands tied, believe in me this time
