shave it off! well i see too many of them walking
around dirt on their face no hair to be found well they
walk in malls and they walk in packs dirt on their lip and
we can't have that, smoke look rough, look bad, look
mean this media-tough kid only about 13 where the hell
is mom, where the hell is pop get a razor blade this has
gotta stop {dirt lip shave it off dirt lip it's gotta stop dirt
lip just wait five years it's not a mustache, it's not a
beard} when i was a headbanger i got beat up five dirt
lips yeah that was enough well i guess by now my
mind's gone wack my friends say man you just gotta
relax,

soap helps dirt helps you keep clean to end dirt lips is
now my dream if you see one walk by well just give 'em
a smack i'll shave their lips and i'll shave their back
{chorus} well i always wonder if they see it at all if they
comb or groom it or just think it's bald, cause the hair
on your lip is like the hair on my arm it's like the hair on
a mole, so don't act so alarmed dirt lips taken all size
and shape they can start at 9 and cover any age burn
it, bleach it, nair it or just masking tape, just get rid of it
all it's not too late {chorus}
