I was talking to a young man at a party in these war  
days  
And he asked me my thoughts  
I talked about peace, fighting for the people,  
He scowled then walked away  
Told me my views are fucked

We screamed, we cried, the message has amplified  
But they won't hear the people's voice  
We scream, we cry, the message has amplified  
But they won't hear the people's voice  
Come on suits it's time to show us something  
You know it's time for better days  
Come on suits it's time to show us something  
Just get your hearts out front, and prove your  
something

Remember being proud, remember feeling loved,  
Remember when leaders gave sacrifice  
I believe all men don't have a price  
Truth in the state of the union address  
Truth in this political process  
I should not have to sing for this

We screamed, we cried, the message has amplified  
But they won't hear the people's voice  
We scream, we cry, the message has amplified  
But they won't hear the people's voice  
Come on suits it's time to show us something  
You know it's time for better days  
Come on suits it's time to show us something  
Just get your hearts out front, and prove your  
something  
Try out your voice, now use it, now use it, we are the  
people  
Try out your voice, now use it, now use it, we are the  
people  
Try out your voice, now use it, now use it, we are the  
people  
Try out your voice, try out your voice, just try out your  
voice  
Now use it, now use it, we are the people
