Staring on the golden chalice, watching deep into the  
Black boiling water inside  
In trance you beholds it's swirling dark majesty  
As the past flashes before your eyes  
Final thoughts written on the parchment  
A last memorandum for the living world  
A silence quite as the grave spreads within  
And unites with the inner emptiness

So sharpen the blade and open your veins  
Lay the noose 'round your neck and dive into death

[chorus:]

Drink from the suicide glass, kiss the venomous lips  
Enjoy the taste of death - Raising the chalice!  
Inhaling the fumes from the reeking juice,  
This is what you chose - Raising the chalice!  
Drink, let your soul set free, with a smile you'll see  
The false eternity - Raising the chalice!  
Now it's time to close your eyes and swallow your  
pride,  
Take the final step - Empty the chalice!

Sip and you will exit this life  
And enter the abyss beyond  
As rigor mortis sets in, your mind will rise  
Escaping this useless host  
Just a gulp away, it's just to swallow  
And then you will feel  
Fell how the pain of life  
Is slowly being drained

So tear your veins, kiss your wrists  
With stainless steel you shall end this misery

Obliteration - the perfect solution  
Suicide, the ultimate sacrifice  
Mix your tears with the blood and get it over with  
Finis malorum - life is complete when you die

[chorus:]

Drink from the suicide glass, kiss the venomous lips

Enjoy the taste of death - Raising the chalice!  
Inhaling the fumes from the reeking juice,  
This is what you chose - Raising the chalice!  
Drink, let your soul set free, with a smile you'll see  
The false eternity - Raising the chalice!  
Now it's time to close your eyes and swallow your  
pride,  
Take the final step - Empty the chalice!

...and as you weep and falls into eternal sleep,  
Drowning in it's nothingness...

[chorus:]

Drink from the suicide glass, kiss the venomous lips  
Enjoy the taste of death - Raising the chalice!  
Inhaling the fumes from the reeking juice,  
This is what you chose - Raising the chalice!  
Drink, let your soul set free, with a smile you'll see  
The false eternity - Raising the chalice!  
Now it's time to close your eyes and swallow your  
pride,  
Take the final step - Empty the chalice!
