I am starring straight out, oh so tall and proud
Lights are shining down now from the back yard
Could You beleave its true, need to get drunk with You
Oh oh oh oh

Hey I dont know the world as You do now
Hey I dont know if anyone could be here right now
I dont know the world as You do now
Hey I dont know if anyone could be here right now

Yes I love the city, as much as You do
And yes Id like to go there I miss the open air
Could You beleave its true, need to get hammered with
You
Oh oh oh oh

Hey I dont know the world as You do now
Hey I dont know if anyone could be here right now
I dont know the world as You do now

Hey I dont know if anyone could be here right now

I dont know, I dont know, I dont know the world no no
no
I dont know, I dont know, I dont know the world as You
do now yeah
Oh oh oh oh

Hey I dont know the world as You do now
Hey I dont know if anyone could be here right now
I dont know the world as You do now
Hey I dont know if anyone could be here right now

Hey I dont know the world as You do now
Hey I dont know if anyone could be here right now
I dont know the world as You do now
Hey I dont know if anyone could be here right now
Yeah
