Too much tension here dont forget to smile
Too much makeup yea, smile and wait a while
Oh my god oh my god they are losing losing yea
All is gone all is gone strictly ballroom yea

Safe me from this dance cause this dance doesnt have
a chance
Safe me from this place cause this place doesnt have
any grace

I want to rock n roll i want to fuck it all up
I want to rip their clothes rip it all of
Oh my god oh my god they are losing losing yea
All is gone all is gone strictly ballroom yea
Safe me from this dance cause this dance doesnt have
a chance
Safe me from this place cause this place doesnt have
any grace

This place is so boring get ready now its so fake
Put on your happy face put on your mask

Safe me from this dance cause this dance doesnt have
a chance
Safe me from this place cause this place doesnt have
any grace
I am still living it out i am still living it out
I am still living it out i am still jumping around
