This world is fucked / because of you / you just don't  
get it /  
what we do / this world is fucked / and you're to  
blame / you just don't get it /  
what we say / i've had enough of this shit / you have  
to change the way you think /  
soon my revenge will begin / because i'm about to  
explode / they call you out / if you  
don't want to play / they'll ruin you life / they'll  
make you pay / they judge the way /  
we think or talk / but what we say / comes straight from  
the heart / i've had  
enough of this shit / you have to change the way you  
think / soon my revenge will  
begin / cause i'm about to explode / i'll tell you once  
and i'll tell you again / open your  
eyes and see what we're living in / once i was blind  
but now i can see / this fucking world means nothing to  
me
