

Dead Stop "Better Than Me"

Visit "[Better Than Me](#)" on MotoLyrics.com

Sick and tired of all your lies
you're the one i despise
i'm tired of fighting people like you
abuse and take is what you do

i'll be who i want to be
i' can't ignore the way i feel
"you and i" have come to an end
i am not like you and i really can't pretend

won't look forward, won't look back
i will follow my own track
abuse and take is what you do
i'm tired of fighting people like you

chorus

you think you're better than me (x4)
but you ain't better than me
you try to bring me down
but i'll always be around
no matter what you do

i'll always see you through
you think you're better than me (x4)
you ain't better than me
