In disbelief / i see you looking at me / but why can't  
you see/  
this is what i want to be / your talk is cheap /and you  
believe in your lies / but  
one day you wake up / and you'd better realize / you  
think you're something / what i  
see is nothing / this kind of life i won't try / how can  
you judge? / if you ain't got a  
clue / don't try to act / i fucking see through you / in  
disbelief / i see you looking at  
me / but why can't you see / this is what i want to be /  
you think you're something /  
what i see is nothing / this kind of life i won't try / you  
think you're something / what  
i see is nothing / this kind of life i won't try / i won't  
try / you think you're something what i see is nothing /  
this kind of life i won't try / you think you're  
something / what  
i see is nothing / this kind of life i won't try / well you  
can kiss my ass / or kiss your  
own ass goodbye
