You are angry and you are bored / they will always sell
you
short / thrive on negativity / it's a life you can't
afford / they will fool you with their
lies / each day you will pay the price / why can't they
just fucking once / pick on
people their own size / nothing that they say hasn't
been said before / nothing that
they do hasn't been done before / nothing that they
say hasn't been said before /
nothing that they do hasn't been done before / you
are angry and you are bored / they
will always sell you short / thrived on negativity / it's a
life you can't afford / they
will fool you with their lies /each day you will pay the
price / why can't they just
fucking once / pick on someone their own size / nothing
that they say hasn't been done
before / nothing that they do hasn't been done before
/ nothing that they say hasn't
been said before / nothing that they say hasn't been
done before / i just won't make up
for your mistakes
