Bunked off school from an early age  
He's going nowhere except to his grave  
Tattooed head won't get him a job  
He's got no talent except the size of his gob  
His dad left home when he was only 2  
His mum let him roam where he wanted to  
She never took an interest she didn't care  
Now she wished she had she's in despair..in despair

[Ref:]

Bunked off school all the time, He's going  
nowhere..he's going nowhere  
Gave the teacher his best line, He's going  
nowhere..he's going nowhere  
Goes to football Saturday, He's going nowhere..he's  
going nowhere  
Throws a punch it goes the wrong way, He's going  
nowhere..he's going nowhere

Fags at break down the end of the field  
It wasn't long before it was drugs that he dealt  
Trouble with the pigs nearly every week  
Soon it was more than just stealing sweets  
Brick through the window of the neighbour's car  
Down to the den with his iron bar  
Bunked off school from an early age  
He's going nowhere except to his grave

[Ref]

The moral of this had got to be  
Don't let your kids run wild and free!  
Don't ignore them when they're only 8  
By the time they're 10 they'll have chosen their fate
