"Keep On Running"

Visit "[Keep On Running](#)" on MotoLyrics.com

He started running in the dead of the night
He'll keep on running till the morning light
He has no plans for looking over his shoulder
He'll keep on running, yea
He'll keep on running, yea

A heavy sigh, makes his body sink down deeper and
In his mind, he can't think straight it makes him weaker
and
It's Do or Die, but he's running from what he don't
know, he
Sees a light, but it's travelling faster from him

In his mind's eye, he can see no future here
So he wants to fly away
But he has this fear, this fear in his heart
This fear of not knowing
