

Deadscore "Broken Promises"

Visit "[Broken Promises](#)" on MotoLyrics.com

All this years, Been putting my trust on you
Never give up hope in believing your words
Promises for a better life... You make me believe
Wonderland is the greatest place, To live & to die for
But instead those words just a fake
You leaving me no chance to escape

Betrayed by promises
I've been betrayed

All this years, Been putting my trust on you
Never give up hope in believing your words
Promises for a better life... You make me believe

All the words you gave... just lies
You the one I hope for... just fake

This hatred comes from a broken heart
Now it's time for me to take it back
Taking back heart, Taking back my pride

I've been betrayed
Betrayed by promises
