This is my... fuckin' vengeance

Look what have u become
My enemy or my friend

For so long
Been victim of your own
Sacrifice your friend
Satisfactions you wanna gain
Now I'm your hatred
Wounded by your lust
Fighting back is my only chance
No tolerance for my vengeance

I'm sick and tired
Been played by your lies
Been played by your games
You so-called my friend

All your disrespect must end
With my fist I regain the strength
There's nothing between us again
I said... nothing between us again

Now I Will Rise
Now I will fight
I'm shutting you down
Straight to the fuckin' ground coz

This is my vengeance
